與導盲犬Gaga相處的點滴

大家好，我係視障跑手Gary Leung。導盲犬Gaga在訓練修畢後，便與我一起生活了八年多。

記得最初與導盲犬Gaga一起拍住上走路時，未有百分百信心。Gaga實在很聰明，那次，我在居住的屋邨附近走路，我記得好清楚那條路徑是向前走，便給她指示向前行，但是她拉著我轉方向要繞路，我心想小狗都是信不過的了！結果我撞到，原本路況有變，前方有修路和障礙物，我卻沒有信任Gaga，硬要拉著她向前，攪到自己幾乎受傷呢！那次以後，我信任Gaga。導盲犬受到專業培訓，會自己按實況作出聰明抗命，實在令我讚嘆不已！

導盲犬Gaga感情豐富，她臉上總掛住「讓人呵護」的表情！走進地鐵車箱，她又用這個招牌表情看著部分坐著的乘客，以致那位先生連忙暫起來讓座。我初時不知道，以為Gaga「慢手慢腳」，那麼遲才找到座下的位置。旁人在說，Gaga好似好想得到這個座位啲！原因好簡單，她想食零食啊！因為每次我給Gaga指示：“find the chair”，她帶我找到座位後，我會給她獎賞小食呢！誰知她就是想吃小食，便使用「感動人的眼神」以達到目的！可謂「不擇手段」呢！

天氣有時出猛太陽、有時又下大雨，但是導盲犬Gaga堅守崗位，完成每個任務，安全的帶著我走路！Gaga已融入我的生活中，就連我要離港到海外參加馬拉松比賽，也有帶著她一起！Gaga感情豐富，她會知道我開心或不開心，她會默默地陪伴，她就好似我的「女兒」般。

每次歸家，我首先是要為Gaga用毛巾抹身才入屋，我輕聲的在她耳旁說：「多謝你啊！辛苦晒！」她又用舌頭舔舔我的面；我實在好感激她，有時還會流下開心的淚水呢！

Gaga已十歲了，她將有退休的生活，我祝福她，希望她開心又健康的過每一天。我寫下分享的心聲，希望大家對導盲犬可以認識更多；如果你在街上見到導盲犬，要好好的善待他們啊！

我也期待下一隻同我拍住上的導盲犬來臨我的家，不知她的性情跟Gaga有甚麼不同呢？

GUIDE DOG USER SHARING

Hello everyone, I'm Gary Leung, a visually impaired runner. My guide dog, Gaga, has been living with me for over eight years since completing her training.

I still remember when we first started walking together - I wasn't 100% confident in her abilities. But Gaga is incredibly smart. One time, near my housing estate, I clearly remembered the path ahead and gave her the command to move forward. Instead, she pulled me to turn and took a detour. I thought to myself, "See? You can't trust a dog!" But then - bam - I realized the path had changed: there were construction and obstacles ahead. I hadn't trusted Gaga and stubbornly tried to pull her forward, almost hurting myself! From that moment on, I learned to trust her completely. Guide dogs are professionally trained to perform "intelligence disobedience" based on real-time situations, and I'm still amazed by that!

Gaga is also very expressive - she always wears this "please pamper me" look on her face! Once on the MTR, she gave her signature puppy eyes to a seated passenger, who immediately stood up to offer his seat. At first, I didn't understand why Gaga was "slow" to find a seat. The someone nearby said, "Gaga really wanted that spot, huh?" The reason was simple: she wanted a treat! Because every time I give her the command "find the chair", she gets a snack as a reward after guiding me to a seat. Who knew she'd use her "heart-melting eyes" just to get a treat? Talk about being "determined"!

Whether under scorching sun or heavy rain, Gaga stays dedicated to her duty, safely guiding me through every journey. She's become such a part of my life that I even bring her along when I travel overseas for marathons! Gaga is deeply attuned to my emotions - she knows when I'm happy or upset and quietly stays by my side, just like a "daughter" would.

Every time we come home, I wipe her down with a towel before entering, whispering in her ear, "Thank you! You've worked so hard!" She responds by licking my face, and sometimes, I'm so moved that happy tears are shed.

Gaga is now ten years old and will soon retire. I wish her a joyful and healthy life in her golden years. I'm sharing my story in hopes that more people will understand guide dogs - if you ever see one on the street, please treat them with kindness!

I'm also looking forward to welcoming my next guide dog into my home. I wonder how their personality will differ from Gaga's?

我與 Alfie 的旅程

我是 Winnie。我與 Alfie 的旅程始於 2021 年 1 月，當時香港導盲犬協會（HKGDA）接納我成為義務幼犬寄養家庭，並將 Alfie 帶到我們家中。Alfie 於 2020 年 11 月在香港出生，是導盲犬的後代。最初他被培育為潛在的導盲犬，但在 2023 年中，他轉型為動物輔助治療（AAI）犬。Alfie 憑藉其冷靜的性格、善於社交以及對人類情緒的敏銳反應，在治療與教育環境中發揮了他的恩賜。

這段旅程與我的預期截然不同，但卻充滿意義。就像養育孩子一樣，這段經歷充滿了擔憂、歡笑、喜悅與苦樂交織的時刻。

初期：養育導盲犬幼犬

Alfie 來到我們家時只有七週大。在 HKGDA 訓練員的耐心指導下，我學會了如何以愛與紀律並重的方式養育幼犬。剛到時，Alfie 被安排在一個安全的小區域，有自己的籠子、毛毯和一隻玩具象，讓他感到安心。

從一開始，我們就遵循嚴格的作息：每兩小時帶 Alfie 到指定地點如廁，隨著他逐漸長大，到了一歲時，這個頻率減少到每日三次。這種「在散步前先如廁」的訓練，在颱風或大雨天特別有用，Alfie 從不需要走太遠就能完成如廁。

Alfie 也有「家規」：不可以撿地上的食物（在香港這一點尤其重要，因為食物中毒很常見）；不可隨意嗅聞來標記地盤；不可以乞食，除非食物是主動給他的；不可以玩任何非玩具的物品（例如拖鞋）。儘管有這些規矩，Alfie 仍可自由在屋內活動、在我們房間睡覺，並接受家人甚至陌生人的撫摸及擁抱。我們也會帶他到公園與認識的狗一起放鬆奔跑。

社交與探索

訓練 Alfie 的社交能力是一件樂事。他時常陪伴我到不同的地方：超級市場、街市、商場，甚至香港國際機場。他也習慣了各種交通工具：私家車、巴士、港鐵、渡輪、小巴，甚至山頂纜車。

有了 Alfie 之後，我們更多探索香港，特別在秋季行遠足徑。難怪導盲犬使用者常說，他們的狗不僅為他們引路，也豐富了他們的社交生活。

苦樂參半的告別

2022 年 10 月，Alfie 離開我們，因為繼續接受訓練而需要前往另一個寄養家庭。雖然 HKGDA 早已讓我們為這一刻做好心理準備，但情感上仍有不捨。我們帶著祝福與他道別，希望他能成為導盲犬，改變一位視障人士的生活。我們也安慰自己，若 Alfie 退休後，使用者無法繼續照顧他，我們可以申請讓他回到我們身邊。

意想不到的轉折

2023 年 11 月，HKGDA 聯絡我，帶來了一個意想不到的消息：Alfie 被評估為不適合成為導盲犬，將轉型為 AAI 犬。我懷著感激與喜悅的心情，欣然接受了成為他的領犬員的角色。

自此之後，Alfie 與我一起提供動物輔助治療（AAT）服務：主要服務於特殊學習需要（SEN）學校；也參與 AAI 教育講座，偶爾探訪安老院。Alfie 特別喜歡與小朋友互動，因為這些互動更動態、更有趣。他曾在一小時內被 50 隻小手輕輕撫摸，也會靜靜坐在壓力大的孩子身旁，並與 HKGDA 的治療師合作，幫助自閉症兒童發展語言與社交技巧。

Alfie 在辦公室

我也會帶 Alfie 到我的辦公室，他深受同事歡迎，大家經常要求他的陪伴，笑說：「我們也需要療癒！」有一次，兩位同事之間出現緊張氣氛，Alfie 察覺到後主動走近他們，他們開始撫摸他，氣氛立刻緩和下來。這個簡單的互動化解了衝突，讓他們能冷靜理性地解決分歧。

展望未來

我期待繼續擔任 Alfie 的領犬員，陪伴他參與各種服務使命，在未來幫助更多孩子。我衷心希望動物輔助治療服務能在香港獲得更廣泛的接受與應用，就像世界其他地區一樣。Alfie 對孩子、同事甚至陌生人的影響，正是人與動物之間深厚連結的見證。

VOLUNTEER'S SHARING

My Journey with Alfie

I am Winnie. My journey with Alfie began in January 2021, when trainers from the Hong Kong Guide Dogs Association (HKGDA) recruited me as a volunteer puppy raiser and brought Alfie into our home. Born in Hong Kong in November 2020, Alfie is a descendant of guide dogs. Initially raised as a potential guide dog, he later transitioned into an Animal Assisted Intervention (AAI) dog in mid-2023 where his calm temperament, sociability and responsiveness to human emotions have proven highly effective in therapeutic and educational settings.

This journey has unfolded quite differently from what I had originally anticipated, yet it has been profoundly rewarding. Much like raising a child, it has been filled with moments of worry, laughter, joy, and bittersweetness.

Early Days: Raising a Guide Dog Puppy

Alfie arrived at our home when he was just seven weeks old. With the patient guidance of HKGDA trainers, I learned how to raise a puppy with both love and discipline. Upon arrival, Alfie was given a small, secure area with his own crate, blanket, and a toy elephant, helping him feel safe and settled.

From the outset, we followed a strict routine: Alfie was taken to the same spot every two hours to relieve himself (every 4–5 hours at night). As he grew older, this schedule was gradually reduced to three times a day by the time he turned one. This discipline—training a potential guide dog to relieve first before going for a walk—proved invaluable, as during typhoons or heavy rain, Alfie never needed to walk long before relieving himself.

At home, Alfie was trained not to: eat food off the floor (a crucial habit in Hong Kong, where food poisoning is common); not to sniff around unnecessarily to mark territory; not to beg for food unless it was offered; not to play with anything other than his toys (e.g., slippers). Despite these house rules, Alfie was free to roam the flat, sleep in our room, and enjoy affection from not only our family but anyone he met. We also took him for off-leash runs in parks with dogs we knew.

Socialisation and Exploration

Training Alfie in socialisation was a joy. I brought him almost everywhere: supermarkets, wet markets, shopping malls, and even Hong Kong International Airport to see my son off. He became accustomed to various modes of transport: car, bus, MTR, ferry, minibus, and even the Peak Tram.

With Alfie in our lives, we began exploring more of Hong Kong, especially for hikes in autumn. It is no surprise that guide dog users often share how their dogs not only guide them but also enrich their social lives.

A Bittersweet Goodbye

In October 2022, Alfie left us to live with another family as part of his formal training. While we had been prepared for this moment by the HKGDA Puppy Raiser Coordinator, it was still emotionally difficult. We bid him farewell with blessings, hoping he would one day become a guide dog and transform the life of a visually impaired person. We also took comfort in knowing that, should Alfie retire, and his user be unable to care for him, we could apply to have him live with us again.

A Surprising Turn of Events

In November 2023, HKGDA contacted me with unexpected news: Alfie had been disqualified from becoming a guide dog and would instead pursue a new path as an AAI dog. With a heart full of gratitude and joy, I gladly accepted the role of his handler.

Since then, Alfie and I have provided Animal Assisted Therapy (AAT) services in schools, primarily Special Educational Needs (SEN) schools; participated in AAI education talks and occasionally visited elderly homes. Alfie particularly enjoys working with children, as the interactions are more dynamic and engaging. He patiently embraced being gently patted by 50 pairs of hands in an hour, sits quietly beside stressed children, and collaborates with HKGDA therapists to support autistic children in developing speech and social skills.

Alfie at the Office

I also bring Alfie to my office, where he is warmly welcomed by colleagues who often request his presence—after all, they need therapy too! Alfie's calming influence was once put to the test when tension arose between two colleagues. Sensing the discord, Alfie approached them, and the atmosphere immediately softened as they began to pat him. This simple interaction helped defuse the situation, allowing the colleagues to resolve their differences calmly and rationally.

Looking Ahead

I look forward to continuing as Alfie's handler, accompanying him on various service missions and helping more children in the years to come. I sincerely hope that Animal Assisted Intervention services will gain broader acceptance and utilisation in Hong Kong, as they have in many other parts of the world. Alfie's impact on children, colleagues, and even strangers is a testament to the transformative power of the human-animal bond.

GUIDE DOG SERVICES

幼犬培訓

幼犬出生滿兩個月至約十四個月後，會入住寄養家庭，接受基礎訓練，包括服從指令、定時定點如廁，以及外出接觸不同環境完成社會化訓練。在與寄養家庭相處的日子裡，牠們感受人類的關愛，逐漸培養出溫和友善的性情。

PUPPY RAISING

From 2 months to around 14 months old, puppies stay with foster families and receive basic training, including obedience, house-training and socialisation in various outdoor settings. Living alongside their foster carers, they are showered with care and affection, developing a gentle and friendly temperament.

寄宿家庭

幼犬年滿約十四至十八個月時，身心與體格發育完備，迎來正式受訓的最佳階段。牠們會轉往新的寄養家庭生活六至九個月，寄養家庭負責接送導盲犬往返學校，並在導師指導下，於日常相處中協助開展訓練。

BOARDER

Upon reaching 14 to 18 months of age, puppies fully mature physically and mentally, ready for formal professional training. They will move to new foster homes for 6 to 9 months. Foster carers transport the dogs to training sessions and assist with daily training under instructors' guidance.

GUIDE DOG SERVICES

導盲犬訓練

本會採用溫和科學的正向訓練方式訓練導盲犬，主要透過食物獎勵與讚許鼓勵犬隻學習，當中包括肢體撫摸及口頭讚美等多樣化獎勵方式。透過持續的正向引導，有效提升導盲犬的學習動力與自信心，讓牠們保持良好狀態，積極投入各項導盲工作。導盲犬除了熟練學習引路技巧，協助使用者安全避開路面各類障礙物與危險路況外，亦會重點訓練「智慧不服從指令」的專業能力。

訓練會教導導盲犬獨立判斷環境風險，一旦接收到存在潛在危險的指令，便會主動停止服從。例如道路有車輛駛近、不適合通行時，就算使用者發出過馬路的指令，導盲犬亦會堅持止步不前，守護使用者安全。與此同時，訓練亦會鍛造導盲犬的抗干擾能力，讓牠們不受街頭環境、路人及突發狀況影響，全程專注引路，穩定帶領使用者安全抵達目的地。

GUIDE DOG TRAINING

We train guide dogs with scientific and humane positive reinforcement methods, including food rewards, physical affection and verbal encouragement such as gentle back stroking and sincere praise. These positive incentives greatly enhance guide dogs' learning motivation and self-confidence, enabling them to perform guide duties actively and steadily. Apart from learning core navigation skills to help handlers avoid road obstacles and potential hazards, guide dogs are professionally trained in "intelligent disobedience".

They are taught to independently assess environmental risks and disobey potentially dangerous commands. For example, they will refuse to cross the road when vehicles are approaching, even if instructed to move forward, fully protecting the safety of visually impaired users. Furthermore, our training helps guide dogs build strong resistance to external distractions. They can stay highly focused in complex street environments and steadily guide their handlers to their destinations safely.

GUIDE DOG SERVICES

配對訓練與支援服務

導盲犬完成全套專業訓練後，將與合資格的視障申請人進行專屬配對。本會透過細緻的配對評估，確保犬隻的性格、步速及工作能力完全契合使用者的生活需要，讓雙方建立穩固關係，成為相伴長久的專業夥伴。

配對的共同適應訓練為期三至四星期，使用者會系統學習各項指令、手勢及溝通方式，與導盲犬反覆磨合、培養合作默契與專業配合度。與此同時，本會團隊亦會指導使用者掌握導盲犬的日常護理知識，並灌養正確的動物福利觀念，確保犬隻得到妥善照顧。

當導盲犬年滿十歲，或因身體機能、健康因素需要提前退役，本會會提供終身跟進支援服務。我們會優先安排退役導盲犬繼續留在原使用者身邊安享晚年；倘若使用者未能繼續照顧犬隻，則會優先送回從小撫養牠的寄養家庭。若以上安排未能落實，本會將為退役導盲犬篩選充滿愛心的合適市民領養，讓犬隻晚年得到溫暖照料。

PARTNERSHIPS & AFTERCARE SERVICES

After completing full professional training, guide dogs will be formally matched with qualified visually impaired applicants. Our thorough matching assessment ensures each dog's temperament, walking pace and working ability fully suit the user's daily needs, forming a stable and long-term partnership.

The joint adaptation training lasts three to four weeks. Users learn standard commands, gestures and communication skills to cooperate and build stable tacit understanding with their guide dogs. During the training, our team also teaches users professional daily care knowledge and correct animal welfare concepts to ensure proper care for the dogs.

When guide dogs reach the age of ten or retire early due to physical conditions, our association provides lifelong aftercare support. We prioritise letting retired guide dogs stay with their original users to enjoy their retirement life. If the user is unable to continue caring for the dog, it will be returned to its original foster family. If neither arrangement is feasible, we will arrange adoption by caring members of the public, offering the retired dogs a warm and loving home.

導盲犬服務發展 - 香港導盲犬學苑

香港導盲犬學苑將於2025年完成前流浮山警署的活化工程，將其轉型為一個多功能的培育及教育基地。該項目歷時數年，不僅保留歷史建築的特色，還將改善空間裝潢與用途，以滿足犬隻培育和公眾教育的需求。學苑將設有專業的幼犬社會化訓練區、高級技能訓練場地，以及模擬公共環境的實習空間，為犬隻提供全面且系統化的訓練環境。

本學苑的核心使命之一，是深化大眾對導盲犬服務的認識與正向觀念。我們透過定期舉辦開放日、導賞團及互動展覽，向公眾展示導盲犬與輔助治療犬的完整訓練流程。學苑亦設置實境示範環節，讓參觀者能夠直觀感受犬隻的工作模式與應變表現。同時，學苑保留並活用舊警署歷史建築，將歷史建築與專業犬隻訓練設施融為一體，連結社區記憶與現代無障礙服務，有效提升社會大眾對導盲犬工作的認同與支持。

除了專業犬隻培育工作外，學苑亦積極推廣導盲犬及輔助治療犬的社會教育，推動共融社會發展。透過定期舉辦導盲犬講座，詳細介紹導盲犬的訓練體系，以及犬隻如何改善視障人士的生活品質、提升出行獨立性。透過多元化的推廣活動，不僅能傳遞正確的專業知識，更讓市民有機會近距離接觸及互動，有效消除社會對視障人士及導盲犬的誤解與偏見，建構更包容、友善的社會環境。

展望未來，香港導盲犬學苑計劃進一步擴展其服務範疇，增強與社區的聯繫，並持續改善犬隻的訓練質素。學苑希望推出導賞團，並與學校合作開發生命教育課程，以普及導盲犬的知識。透過這些創新舉措，學苑旨在成為推動香港包容性社會的重要樞紐，讓每位需要幫助的人都能獲得所需的支持，並享受更高的生活質量。

GUIDE DOG SERVICES

GUIDE DOG SERVICES DEVELOPMENT - HONG KONG GUIDE DOGS ACADEMY

The Hong Kong Guide Dogs Academy target to complete the revitalization of the former Lau Fau Shan Police Station, in 2025, transforming it into a multifunctional breeding and educational hub. This project took several years and not only preserve the historical architecture but also enhance the space's layout and functionality to meet the needs of dog breeding and public education. The Academy features specialized areas for puppy socialization, advanced skills training facilities, and simulated public environments for practical training, providing a comprehensive and systematic training environment for the dogs.

One of the core missions of our academy is to enhance public understanding of guide dog services. By organising open days, guided tours and interactive exhibitions, we demonstrate the complete training process of guide dogs and therapy assistance dogs. We also arrange real-life scenario demonstrations, allowing visitors to observe the dogs' working skills and performance intuitively. Integrating the historic police station architecture with modern training facilities, the academy connects local community heritage with contemporary social services, strengthening public recognition and support for guide dog work.

Beyond professional dog breeding and training, the academy is committed to public education and social inclusion. We regularly host public talks to introduce guide dog training systems and illustrate how guide dogs improve the quality of life and mobility independence of visually impaired people. These educational events not only deliver professional knowledge, but also provide valuable interaction opportunities. They help eliminate public misunderstandings and prejudice towards visually impaired users and guide dogs, fostering a more inclusive and compassionate society.

Looking to the future, the Hong Kong Guide Dogs Academy plans to expand its range of services, strengthen community connections, and continuously enhance the quality of dog training. The Academy aims to launch guided tours and collaborate with schools to develop life education courses to spread awareness about guide dogs. Through these innovative initiatives, the Academy aspires to be a pivotal hub for promoting an inclusive society in Hong Kong, ensuring that everyone in need can receive the support they require and enjoy an improved quality of life.

動物輔助治療服務

ANIMAL ASSISTED INTERVENTION SERVICES

協會自 2018 年起開始提供犬隻輔助介入服務，旨在協助更多有需要的人士。目前，本會已獲得國際專業組織認可，成為 Assistance Dogs International (ADI) 及 Animal Assisted Intervention International (AAII) 的成員。

過去一年，動物輔助介入服務是本機構的核心項目。我們致力於結合專業治療師/引導員與受訓犬隻的協作，為不同年齡層與需求群體提供身心健康支援，旨在提升他們的情緒調節、社交互動、行為表現及認知能力。本報告將回顧 2024–2025 年度的主要成果、面臨的挑戰及未來的發展計劃。

In order to help a larger range of individuals in need, the Association started offering Animal Assisted Intervention (AAI) services in 2018. The organization is currently recognized as a member of Animal Assisted Intervention International (AAII) and Assistance Dogs International (ADI).

AAI services have been a key component of our organization's offerings for the past year. Our goal is to improve the emotional, social, behavioral, and cognitive well-being of various age groups and needs by working with professional therapists/facilitators and trained AAI dogs. The major successes and difficulties of the 2024–2025 period are outlined in this report, along with plans for further development.

動物輔助介入 (AAI) 服務涵蓋動物輔助治療 (AAT)、動物輔助活動 (AAA) 及動物輔助教育 (AAE) 三大範疇，致力為不同年齡層提供多元化支援，服務對象包括主流學校及特殊教育機構的學生、成年人及長者。

Animal-Assisted Intervention (AAI) services cover three core areas: Animal-Assisted Therapy (AAT), Animal-Assisted Activities (AAA), and Animal-Assisted Education (AAE). Designed to support people of all ages, our services benefit students in mainstream and special education settings, as well as adults and elder.

動物輔助治療服務

ANIMAL ASSISTED INTERVENTION SERVICES

動物輔助治療

動物輔助治療由有認可執照/註冊的治療師主導，透過設計合適的治療方案，運用受過訓練的治療犬進行個人或小組治療，旨在提升服務使用者的身心健康。為達致最佳治療效果，動物輔助治療可與其他專業治療相結合，例如職業治療、物理治療、言語治療、心理治療或行為治療等。

動物輔助活動

動物輔助活動透過讓服務對象參與互動式的治療犬體驗，旨在提升其心理及情緒健康。這些活動藉由人與動物之間的互動，促進正向情緒並有效緩解壓力。

動物輔助教育

動物輔助教育由領有執照及註冊的教育專業人員主導，透過運用受過訓練的治療犬進行結構化的教學活動，提升學生的投入度與個人發展。此教學模式不僅可應用於常規課程，亦適用於生命教育、情緒教育及特殊教育等專門領域。

ANIMAL ASSISTED THERAPY (AAT)

Using trained therapy dogs, licensed and registered therapists conduct individualized or group therapy sessions aimed at enhancing the physical and mental health of their clients. To optimize therapeutic results, AAT can be combined with other professional therapies like occupational therapy, physiotherapy, speech therapy, psychotherapy, or behavioral therapy.

ANIMAL ASSISTED ACTIVITY (AAA)

In order to enhance mental and emotional health, AAA involves participants in interactive therapy dog sessions. These activities promote positive emotions and lessen stress through human-animal interactions.

ANIMAL ASSISTED EDUCATION (AAE)

In order to improve students' engagement and development, AAE includes licensed and registered educators using trained therapy dogs in structured learning activities. Both traditional curricula and specialized programs like life education, emotional education, and special needs education can use this method.

活動項目與成果

本協會的動物輔助介入 (AAI) 服務皆以團體形式進行，每節時長為 45–60 分鐘。本年度，我們共為 69 間學校、機構及社區中心提供了超過 170 小時的服務（涵蓋動物輔助介入的三大範疇及教育講座），服務總人次超過 14,000 人。其中，特殊教育需要 (SEN) 學生為我們的重點服務對象，共計超過 5,000 人受益，約佔服務總人數的 40%。

於本年度內，本協會有幸獲【嘉道理慈善基金會】慷慨贊助，開展為期三年的“小Q伴成長”犬隻輔助介入服務計劃，專為3至12歲自閉症譜系障礙兒童提供具治療及支持性的小組動物輔助治療/活動，藉此讓服務對象在情緒、社交、行為甚或認知能力上得到改善，以提高他們的溝通及活動能力。計劃首年度已於54間學校推行，合共舉辦140場治療及活動服務，累計受惠人次逾560人。

此外，本年度本協會與盲人輔導會合作，為其轄下五間安老院提供輔助治療犬服務。服務透過探訪活動，讓長期居於院舍的長者在專業引導員帶領下與治療犬互動，在輕鬆愉快的環境中獲得支持與陪伴。期內共舉辦60場服務，累計受惠人次達1,200人。

Programs and Outcomes

Our AAI services are conducted in group settings, with each session lasting 45–60 minutes. We provided more than 170 service hours in all three AAI categories (including educational seminars) to 69 schools, institutions, and community centers this year, benefiting more than 14,000 people. Approximately 40% of all beneficiaries, or over 5,000 students with special educational needs (SEN), have benefited from the AAI services.

Within this year, Hong Kong Guide Dogs Association was honored to receive generous sponsorship from the Kadoorie Charitable Foundation to launch a three-year “Grow with Little Q” animal-assisted intervention service. The program is specifically designed for children aged 3 to 12 who are on the autism spectrum, providing therapeutic and supportive group animal-assisted therapy/activities. Through these interventions, the service recipients are supported to improve in areas such as emotional regulation, social skills, behavior, and even cognitive abilities, with the aim of enhancing their communication and participation in activities. In the first year of the program, implementation has begun in 54 schools, with a total of 140 therapy and activity service sessions conducted. The cumulative number of beneficiaries has exceeded 560.

In addition, this year the Association also collaborated with the The Hong Kong Society for the Blind to provide AAI dog services to five elderly care homes under its purview. Through visitation activities, elderly residents who have long lived in institutional care settings are able to interact with the therapy dogs under the guidance of professional facilitators, receiving support and companionship in a relaxed and enjoyable environment. During the period, a total of 60 service sessions were held, reaching 1,200 cumulative beneficiaries.

Finally, participants can interact closely with guide dogs and AAI dogs, take photos with the "Little Q's" for keepsakes, and enjoy a fulfilling and meaningful experience.
